

Meet our Professional Staff

RICK PETERSON, PT
Director of Wellness and Rehab

I am an accomplished specialist in the resolution of head, neck and facial pain.

I am a 1973 graduate of the University of Wisconsin-Madison with a degree in Physical Medicine and a certificate of Physical Therapy.

With 35 years of experience as a physical therapist in a variety of practice settings, I specialize in the care of geriatric patients to enhance their function and quality of life.

I motivate my patients by developing a clear understanding of their needs and then working with them and their families to recognize the value and importance of a steady approach to the rehab program. It is important to always remember that those who come to see us for care are people first and patients second.

In my free time, I am involved in woodworking projects at home, as well as cross-country skiing, bicycling and am an active member in my church.
